

# State of Texas

## Population Growth 2000-2010

**The Minority Community Provided  
90% of the State Growth  
And as a Result the Texas  
Congressional Delegation was  
Increased by Four Seats.**

**Veasey Plaintiffs  
Appendix  
No. 4**

In Context this Almost 4,000,000 Growth in the  
minority Community Would Equal the Population  
of 25 State House Seats

While the White Population Growth Approximately  
2.5 State House Seats

Had the Texas Minority Population Grown at the  
Same Rate as the White Population

Instead of Gaining Four Congressional Seats

The State would have Lost At least One and  
Probably Two Seats

Stated Otherwise, The Enormous Growth of the  
Minority Community Represents a Swing of Six  
Districts

# Dallas, County

Population Growth 2000 - 2010

**Minority**

**In Dallas County the Anglo population fell by 198,624 while the minority population grew by 347,834**

**The Growth of Minorities is the equivalent of 2 State Representative Districts while the Anglo Population Declined by more than an Entire State Representative District**

**Anglo**

# Dallas, Metroplex\*

Population Growth 2000 - 2010

The Same is True for the  
Entire Metroplex Area

**In the Greater Dallas-Fort  
Worth Metroplex, the  
Minorities made up 87.1%  
of the Overall Growth  
between 2000 and 2100**

\* Dallas and Tarrant as well  
as the first ring of surrounding  
counties

# Dallas County Population Growth 1970 - 2040

**774,499**

**Minority**

# Harris County

Population Growth 2000 - 2010

**In Harris County The Minority  
Population Increased by Almost  
775,000 While the Anglo  
Population Declined by More  
Than 82,000**

**Anglo**

**1,060,450**  
**(100%)**

# Harris County Metro Area

**Population Growth 2000 - 2010**

**Minority**

**-3,743**  
**(-0.35%)**

**Anglo**

**In the Greater Harris  
County Metro Area, the  
Hispanic and  
AfroAmerican Minority  
made up more than 100%  
of the Overall Growth  
between 2000 and 2010**

\* Harris County and the first  
ring of surrounding counties

80% of the 2000-2010 Growth**

# Midland Ector Mix

(Districts 81 and 82)  
Population Growth 2000 - 2010

In the Midland and Odessa  
Area grew by 46,061 while  
Anglos Declined by 8,498

Minority

# McLennan-Brazos Mix

## Population Growth 2000 - 2010

(Districts 14, 56 and 57)

**The Minority Population  
Constituted just Under  
80% of the Growth**

58.1%

# McLennan-Brazos Mix

(Districts 14, 56 and 57)

## 2010 Population by Race and Ethnicity

Minorities Constitute More  
that 41% of the 6 County  
Area \*

Minority

Anglo

\*Brazos, Falls, Limestone, McLennan and Robertson Counties

**52,413**

# Bell and Lampasas County

Population Growth 2000-2011 by Race and Ethnicity  
(Districts 54 and 55)

**The Minority Population  
Contributed More than  
70% of the 2000-2010 Growth**

**21,163**

# Bell and Lampasas Mix

**2010 Census Pop by Race and Ethnicity**  
(Districts 54 and 55)

**According to the 2010 Census  
Minorities were just under  
Half of the Population of  
Bell and Lampasas Counties**

93

District 93 is fish hook shaped district that essentially winds from suburban heavily Anglo North central Tarrant County to the East central. What happens is that the state took a compact heavily minority fast growing area in the Central Cities that was in the former District 93 and ties it in with the Suburban Northern part of the County. This heavily minority area contains a total of almost 37,000 persons and based on the 2000 Census was more than 67.2 % minority. The balance of the old district 93 and Logically this minority area should have been added to District 106 which contains the balance of the central cities area.
